**Subject:** Breaking: Recall Elections Set

Democratic Legislative Campaign Committee

Frank --

This afternoon, the Wisconsin Government Accountability Board set July 12th as the date when the first Republican state senators will face recall elections in Wisconsin.

And I have to say – I love our chances.

**Victory here could stop the national GOP's war on workers in its tracks.**

That's why I've set an emergency grassroots goal of raising \$150,000 by next week's critical fundraising deadline. Help make sure the DLCC has the resources we need to make an impact in campaigns like these!

**[Accountability starts NOW – Please contribute \\$10 or more to help us defeat anti-worker Republicans in legislatures across the country!](#)**

Make no mistake - the entire Wisconsin GOP is in panic mode over these recalls.

The *Associated Press* reports that Republicans are rushing to pass as much right-wing legislation as they can before the voters throw them out of office – including the latest bill a few days ago that would disenfranchise nearly a million Wisconsin residents.

The voters have turned against them, and now Republicans will finally face the consequences of their all-out war against working families and society's most vulnerable.

**[We need to keep up the pressure! Can you contribute \\$10 or more to hold Republican state legislators accountable for](#)**

## **attacks on working families?**

This is our chance to remind people across the country what the radical GOP agenda is all about, and what the Wisconsin 14 and other Democratic legislators are doing to protect working families.

That's what these recall campaigns are all about.

And if Democrats can win these recalls, it'll be a warning shot to Republicans everywhere that they cannot attack working families with impunity.

Not now, and not ever.

Sincerely,

Michael Sargeant  
Executive Director  
The Democratic Legislative Campaign Committee
